Feeding Stuffs Report

1951

Introduction

THE Pennsylvania Feeding Stuffs Law, Act of May 3, 1909, as amended, provides for the inspection and analysis of feeding stuffs. Accordingly, during the year ended December 31, 1951, 662 official samples were obtained by agents of the Bureau of Foods and Chemistry throughout the Commonwealth. Of the total number of samples collected, 626 were selected for analysis.

Each and every feeding stuff sold within this Commonwealth is required to be properly labeled, giving the following information: Name and address of manufacturer or importer, net weight, guarantees for protein, fat and fiber, and a statement of composition, that is, the name of each ingredient used.

During the year 1951 there were 121 special samples of feeding stuffs submitted for analysis. The Law provides for the analysis of special samples of feeding stuffs for residents of Pennsylvania only, for a fee of \$1.00 per sample. The results of analysis of such special samples submitted are not included in this report. The total number of official and special samples analyzed during the year 1951 was 747.

The 626 official samples analyzed were registered by 205 manufacturers and represented 21 classes and 546 brands as follows:

<i>Classes</i>	<i>Samples</i>
Alfalfa Products	7
Animal Products	8
Brewers' Products	1
Corn Products	2
Distillers' Products	1
Linseed and Flax Products	1
Marine Products	1
Soybean Products	2
Wheat Products	9
Calf Feed	4
Chop Feed	5
Dairy Concentrates	28
Dairy Feed	115
Horse Feed	6
Poultry Concentrates	3
Poultry Feed	248
Scratch Feed	7
Small Animal Feed	106
Swine Concentrates	9
Swine Feed	53
Miscellaneous Feed	10
Total	626

Brands Registered

Each brand of feeding stuffs is required to be registered annually. Application should be submitted before January 1 of each year or before the feed is offered for sale. When brands of feeding stuffs are re-registered, they must be accompanied by a tonnage affidavit, duly sworn to, showing the exact number of tons of each brand sold during the last preceding year. When a tonnage affidavit is not submitted covering brands to be re-registered, then the Law provides for a registration fee of \$25.00 per brand. The annual registration fees are as follows:

0 to 150 tons, each	\$ 5.00
Over 150 tons to 300 tons, each	10.00
Over 300 tons to 500 tons, each	15.00
Over 500 tons, each	25.00

Pure Wheat Bran, Pure Wheat Middlings, Pure Wheat Mixed Feed, Pure Rye Bran, Pure Rye Middlings, Pure Rye Mixed Feed, Pure Buckwheat Bran, Pure Buckwheat Middlings, Pure Buckwheat Feed, Pure Corn Meal and Pure Corn and Oats Chop can be registered for a fee of \$5.00 each, it being unnecessary to submit a tonnage affidavit. Pure whole grains, when made into meals and unmixed, do not require registration, provided no part of the grain has been removed in the process of milling. Pure Corn Meal, made by the grinding and bolting of corn, requires registration.

For 1951 sales, 7,302 brands of feeding stuffs were registered and 1,383 licenses were issued to 1,086 manufacturers.

Conclusions

Of the 621 official samples analyzed, 102 or 16.29 per cent were deficient in protein or fat and contained fiber in excess of the tolerances provided; 24 samples or 3.83 per cent were found deficient in protein; 36 or 5.75 per cent deficient in fat; and 42 or 6.71 per cent exceeded guarantees for fiber.

Consumers of feeding stuffs purchase the products under certain guarantees and labeling, and naturally expect that ingredients which are claimed should be present. Where an ingredient is omitted or added by a manufacturer, this Bureau should be notified and arrangements made for proper labeling of sacks or attached cards.

All inquiries concerning feeding stuffs should be addressed to the Director, Bureau of Foods and Chemistry, Pennsylvania Department of Agriculture, Harrisburg, Pennsylvania.

TABLE I--CLASSIFICATION SHOWING AVERAGE ANALYSIS AND PRICES OF SAMPLES ANALYZED WITH SUMMARY OF DEFICIENCIES

Key to Table II Showing Analyses of Official Samples

Table II shows in detail the results of analyses under the various classifications, together with their guarantees.

Columns are provided for the found and guaranteed protein, fat and fiber.

Each sample is listed with a chemist's number which will be found in parentheses after the brand name.

The several classes of Feeding Stuffs, as shown on Table I, are classified under the following general headings and sub-headings:

ALFALFA PRODUCTS, including Alfalfa Meal

ANIMAL PRODUCTS, including Meat and Bone Scrap, and Meat Scrap

BREWERS' PRODUCTS, including Brewers' Dried Grains

CORN PRODUCTS, including Hominy Feed

DISTILLERS' PRODUCTS, including Corn Distillers' Dried Grains

LINSEED AND FLAX PRODUCTS, including Linseed Oil Meal

MARINE PRODUCTS, including Crab Meal

SOYBEAN PRODUCTS, including Soybean Oil Meal

WHEAT PRODUCTS, including Wheat Bran, and Wheat Middlings

CALF FEED

CHOP FEED

DAIRY CONCENTRATES

DAIRY FEED

HORSE FEED

POULTRY CONCENTRATES

POULTRY FEED

SCRATCH FEED

SMALL ANIMAL FEED, including Bird Seed, Dog and Cat Food, Pigeon Feed and Rabbit Feed

SWINE CONCENTRATES

SWINE FEED

MISCELLANEOUS FEED
